# 3<sup>rd</sup> Global Summit on Herbals & Traditional Medicine October 18-20, 2017 Osaka, Japan

Recommended Global ALTERNATIVE HEALTHCARE Conferences

## USA & Americas

Holistic Medicine 2017, Canada (<http://holisticmedicine.conferenceseries.com/>)

Acupuncture 2018, USA (<http://acupuncture.conferenceseries.com/>)

()

## Europe & Middle East

Alternative Medicine 2017, UAE (<http://alternativemedicine.conferenceseries.com/>)

Traditional Medicine 2017, UAE (<http://traditionalmedicine.conferenceseries.com/>)

cns-neuro2018, Germany (<http://cns.neurologyconference.com/>)

Chinese Medicine 2018, Germany (<http://chinesemedicine.conferenceseries.com/>)

()

## Asia Pacific

Herbals Summit 2017, Japan (<http://herbal.global-summit.com/>)

Naturopathy 2018, Japan (<http://naturopathy.conferenceseries.com/>)

()

OMICS International (<https://www.omicsonline.com/>) Organises 3000+ Global Conferenceseries (<http://www.conferenceseries.com/>) Events Every Year across USA, Europe & Asia with support from 1000 more scientific societies (<https://www.omicsonline.org/international-societies-world-fedarations-scientific-associations.php>) and Publishes 700+ Open access journals (<https://www.omicsonline.org/open-access-journals-list.php>) which contains over 50000 eminent personalities, reputed scientists as editorial board members.

**Dina Tulina** (<https://www.omicsonline.org/speaker/dina-tulina-stellar-biomolecular-research-germany/>)

Stellar Biomolecular Research, Germany

Title: Placenta and Marine Extract Supplements, Nano peptides, Mito Organelles, Phyto-peptides and botanicals applying advanced biomolecular technologies in regenerative medicine, biological therapy and natural healing

## Biography

Dr. Dina Tulina, MD, cPhD, MSocSc (UK), MSc Neuropsychiatry is Senior Medical Advisor at Stellar Biomolecular Research, speaker and specialist in anti-aging, aesthetics and regenerative medicine. After 15 years of medical and research experience in neuropsychiatry, Dr. Tulina turned her clinical practice and scientific interests to preventive medicine, natural and holistic age reversal therapies, and the usage of biologicals in regenerative medicine. Nowadays Dr. Tulina lectures widely as well as been published in many international academic journals. She is an active member of professional medical societies, associations and research projects, and a respected Senior Medical Advisor at European Wellness Academie, NexGen Biopharma and various APEC offices.

## Abstract

The evolution of complementary and alternative medicine led to the globally academically recognized level and became popular among health care consumers, practitioners, researchers and policy makers. Complementary and alternative medicine ranges widely from nutrition and supplements up to nanotechnology and cell therapy. The biggest part of alternative therapy consists of biological medicine which includes therapeutic goods and substances naturally derived from biological sources. Placenta and Marine Extract Supplements with fish cartilage extracts, collagen and elastin studied in Skin Test Institute, Neuchatel, Switzerland and showed improvement in mental symptoms, physical performance including cartilage reconstruction, skin anti-ageing and condition overall. Progress in Nanotechnology and molecular biology elevated research to a new advanced era as 10 kDa nano peptides able to penetrate through buccal mucosa and can be administered sublingually. Nano Organo Peptides extracted from ovary tissue, thymus, testis, pancreas and other main organs help to repair and restore cellular structure and organ function and naturally stimulate hormone production. Next step of technology is scientifically proven combination of different sizes of peptides for enhanced and prolonged effect. Mito Organelle Formula combines 10 kDa nano size peptides with 45-65kDa. Natural regenerative effect was observed after second mesotherapy by MO aesthetic range. Longest effect belongs to concentrated biological extracts from spleen, adrenal gland, heart, liver, hypothalamus, placenta and other organs and tissues due to big size of molecules despite that effect achieved slower. Phyto peptides technology available in supplements for slimming and muscle building-Myopep, anti-inflammatory- Regenapep and sexual health - Enhacep. PlaQX Forte with botanical ingredient from soya beans restores liver, decreases LDH, reduces high blood pressure, removes atherosclerotic plaques and improves memory. The regenerative properties of organic ingredients are already present and future research will bring new opportunities for natural healing and anti-ageing.
